Review & Revision:

Future changes should be coordinated through the Clinical Laboratory Manager and approved by one of the Residency Program Co-Directors. When implementing changes to the web site, review other documents (e.g., related policy/procedures, diagrams, forms, charts, posters, etc.) to determine if what other documents will be affected by the change.

After revisions are approved, an e-mail notification will be sent to appropriate personnel and a copy of the communication will be maintained on file in 2N218. Appropriate signatures or an e-mail with a statement of understanding of the changes, will also be maintained in 2N218.

A description of future reviews will be maintained below: (Format Subject to Change)
